

Kamal Mohamed Sorour

Full-stack Software Developer

+20 101 181 0767 @ kamalsorour0@gmail.com kimoo.netlify.app linkedin.com/in/kamal-sorour Tanta, Egypt

Summary

Dedicated Full-stack Software Developer with hands-on experience building modern, responsive, and high-performance web applications. Highly proficient in the React ecosystem (Next.js, TypeScript), Node.js, and modern CSS frameworks. Passionate about creating clean user interfaces, scalable component architectures, and delivering exceptional user experiences through accessibility, performance optimization, and responsive design

Key Achievements

 Enhanced Performance Increased e-commerce application speed by 30% through optimization strategies.	 Bilingual Portfolio Successfully implemented 100% bilingual support in personal portfolio.
 Team Leadership Led a team to develop a social networking app, achieving 99% user satisfaction.	 Quality Assurance Achieved 95% test coverage on all projects by implementing comprehensive testing strategies.

Education

Information Technology

Faculty of Arts, Tanta University

- Expected Graduation: 2028
- Relevant Coursework: Programming Fundamentals, Web Technologies, IT Fundamentals

Projects

Yassify

- Premium E-Commerce Platform | Next.js, React, TypeScript, Tailwind CSS, NextAuth, shadcn/ui, Context API
- Developed a modern, responsive e-commerce application using the Next.js App Router and TypeScript with a scalable architecture
 - Built secure authentication and protected routes using NextAuth
 - Implemented a complete shopping workflow: cart, wishlist, checkout, and order management
 - Optimized performance utilizing React Server Components and implemented advanced SEO (Open Graph, Twitter Cards, sitemaps)

Yass Social

- Social Networking Application | React, Vite, Tailwind CSS, React Router, TanStack Query, Framer Motion
- Built a comprehensive social networking platform featuring secure JWT authentication and protected routes
 - Developed core functionalities including post creation, editing, commenting, likes, bookmarks, and real-time notifications
 - Optimized server state and API requests using TanStack Query with efficient caching strategies
 - Designed a responsive UI with dark mode, infinite scrolling, skeleton loading, and offline detection

Personal Portfolio

- Next.js, React, TypeScript, Tailwind CSS, next-intl, PWA
- Designed a bilingual (English/Arabic) portfolio showcasing technical skills with full RTL support
 - Integrated Progressive Web App (PWA) capabilities with offline support and service worker caching
 - Developed an interactive terminal-inspired assistant to enhance visitor engagement

Skills

Frontend & UI

React Next.js Tailwind CSS Bootstrap React Router Framer Motion shadcn/ui next-intl

Backend & Data

Node.js REST APIs TanStack Query Axios
